COMFORT WITHOUT COMPROMISING ON STYLE: THE PIONEER CENTRE SECONDS COSMIC GREEN BY H. MOSER & CIE.

Neuhausen am Rheinfall, March 21st, 2018

Comfortable and designed for everyday wear, the Pioneer collection by H. Moser & Cie., features an audacious and contemporary design. With references to the industrial world, its pioneering, adventurous spirit shines through. Equipped with a steel case, the Pioneer Centre Seconds Cosmic Green model is water-resistant to 120 metres. This is the first cosmic green dial, reminiscent of the jewel tones of the Northern Lights, to join the Pioneer family, producing a look that is both elegant and resolutely contemporary.

With its sturdy character, the Pioneer Centre Seconds watch is as elegant as it is practical. It adapts to every situation to serve everyday heroes. It is as suited for wear in the city as it is at the beach. Crowning the steel case, a curved sapphire crystal highlights the deep and mysterious tones of the cosmic green dial, this first of its kind to join the Pioneer family. The indices, tipped with a luminescent dot, are faceted, and the hands are partially skeletonised with Superluminova® tips, perfectly in line with the open, streamlined aesthetic. A fabric strap provides the final touch, reinforcing the contemporary dynamic of this resolutely stylish model, with a bold touch of non-conformity.

At the heart of the Pioneer Centre Seconds Cosmic Green model beats the HMC 200 movement. Designed, developed and produced entirely in-house, this calibre is equipped with a regulating organ manufactured by Precision Engineering AG, the sister company of H. Moser & Cie. Decorated with the famous Moser double stripes on the bridges and plate, housing a large engraved oscillating weight, the calibre HMC 200 is 100% Swiss, 100% Moser.

The unmistakable H. Moser style of irreverent Haute Horlogerie.

H. MOSER & CIE.

H. Moser & Cie. was created by Heinrich Moser in 1828. Based in Neuhausen am Rheinfall, it currently employs 55 people, has eight of its own calibres and produces 1,200 watches per annum. H. Moser & Cie. manufactures parts such as regulating organs and balance-springs, which are used for its own production as well as to supply its partner companies. H. Moser & Cie. is honoured to have a Moser family member with the company as Honorary Chairman and President of the Heinrich and Henri Moser Foundation. The aim of the Moser Foundation, created by one of Heinrich Moser's descendants, is to keep the family history alive and seek out antique pieces for the Moser Museum, located in Charlottenfels Manor, Heinrich Moser's family home. With its substantial watchmaking expertise and highly acclaimed experience in the sector, MELB Holding holds shares in H. Moser & Cie. and Hautlence. MELB Holding is an independent family group, based in the heart of the legendary Vallée de Joux.
