PRESS RELEASE

A DUAL WINDOW DISPLAY FOR THE NEW PERPETUAL CALENDAR FROM H. MOSER & CIE.

Neuhausen am Rheinfall, August 28th 2019

For the first time in its history, H. Moser & Cie. has created a perpetual calendar with two windows displaying the date and month. The aim of this development is to offer optimal legibility in the brand's sportiest line: Pioneer. The Pioneer Perpetual Calendar MD features a steel case water-resistant to 120 metres, enabling it to display the time under any conditions, whether on land or underwater. A practical, wearable perpetual calendar for everyday heroes.

In 2015, H. Moser & Cie. launched the Pioneer collection. This contemporary collection, imbued with a pioneering, adventurous spirit, was the obvious choice to accommodate the brand's new perpetual calendar with dual window display. A stylish creation with two large windows to display the date and month and two discs featuring the Flash Calendar function, which changes instantly when necessary. The date can be set at any time of the day, forwards or backwards, with no risk to the movement.

The Pioneer Perpetual Calendar MD is an innovation par excellence, available in two models with bold colours: the first features the Funky Blue dial with traditional indexes and markers; the second is dressed in a brand new colour – Burgundy – and stripped of almost all indications except for the dots that mark the hours. An offset small second sits at 6 o'clock, and a power reserve indicator at 9 o'clock, along with the leap year cycle indicator, which is concealed on the movement side. The leaf-shaped hands are partially skeletonised and filled with Superluminova®, as are the hour marker dots on the flange.

At the heart of the Pioneer Perpetual Calendar MD beats a new Manufacture calibre. A complex marvel of ingenuity, the HMC 808 hand-wound movement offers a comfortable power reserve of at least seven days thanks to its double barrel.

The Pioneer Perpetual Calendar MD finds H. Moser & Cie. daring to push the limits of fine mechanical watchmaking ever further, always aware of the brand's need to continue innovating and reinventing itself.

The unmistakable H. Moser & Cie. style of irreverent Haute Horlogerie.

H. MOSER & CIE.

H. Moser & Cie. was created by Heinrich Moser in 1828. Based in Neuhausen am Rheinfall, it currently employs around 60 people, has developed 14 in-house calibres to date and produces more than 1,500 watches per annum. H. Moser & Cie. manufactures parts such as regulating organs and balance-springs, which are used for its own production as well as to supply its partner companies. H. Moser & Cie. is honoured to have a Moser family member with the company as Honorary Chairman and President of the Heinrich and Henri Moser Foundation. The aim of the Moser Foundation, created by one of Heinrich Moser's descendants, is to keep the family history alive and seek out antique pieces for the Moser Museum, located in Charlottenfels Manor, Heinrich Moser's family home. With its substantial watchmaking expertise and highly acclaimed experience in the sector, MELB Holding holds shares in H. Moser & Cie. and Hautlence. MELB Holding is an independent family group, based in the heart of the legendary Vallée de Joux.
